

Instruction for Authors

The Journal of the Dental Association of Thailand, supported by the Dental Association of Thailand, is an online open access and peer-reviewed journal. The journal welcomes for submission on the field of Dentistry and related dental science. We publish 4 issues per year in January, April, July and October.

» Categories of the Articles «

1. Review Articles: a comprehensive article with technical knowledge collected from journals and/or textbooks which is profoundly criticized or analyzed, or tutorial with the scientific writing.

2. Case Reports: a clinically report of an update or rare case or case series related to dental field which has been carefully analyzed and criticized with scientific observation.

3. Original Articles: a research report which has never been published elsewhere and represent new significant contributions, investigations or observations, with appropriate experimental design and statistical analysis in the filed of dentistry.

» Manuscript Submission «

The Journal of the Dental Association of Thailand welcome submissions from the field of dentistry and related dental science through only online submission. The manuscript must be submitted via <http://www.jdat.org>. Registration by corresponding author is once required for the article's submission. We accept articles written in both English and Thai. However, for Thai article, English abstract is required whereas for English article, there is no need for Thai abstract submission. The main manuscript should be submitted as .doc (word97-2003). All figures, and tables should be submitted as separated files (1 file for each figure or table). For the acceptable file formats and resolution of image will be mentioned in 8. of manuscript preparation section.

» Scope of Article «

Journal of Dental association of Thailand (JDAT) is a quarterly peer-reviewed scientific dental journal aims to the dissemination and publication of new knowledges and researches including all field of dentistry and related dental sciences

» Manuscript Preparation «

1. For English article, use font to Cordia New Style size 14 in a standard A4 paper (21.2 x 29.7 cm) with 2.5 cm margin on a four sides. The manuscript should be typewritten.

2. For Thai article, use font of Cordia New Style size 14 in a standard A4 paper (21.2 x 29.7 cm) with 2.5 cm margin on a four sides. The manuscript should be typewritten

with 1.5 line spacing. Thai article must also provide English abstract. All reference must be in English. For the article written in Thai, please visit the Royal Institute of Thailand (<http://www.royin.go.th>) for the assigned Thai medical and technical terms. The original English words must be put in the parenthesis mentioned at the first time.

3. Numbers of page must be placed on the top right corner. The length of article should be 10-12 pages including the maximum of 5 figures, 5 tables and 40 references for original articles. (The numbers of references are not limited for review article).

4. Measurement units such as length, height, weight, capacity etc. should be in metric units. Temperature should be in degree Celsius. Pressure units should be in mmHg. The hematologic measurement and clinical chemistry should follow International System Units or SI.

5. Standard abbreviation must be used for abbreviation and symbols. The abbreviation should not be used in the title and abstract. Full words of the abbreviation should be referred at the end of the first abbreviation in the content except the standard measurement units.

6. Position of the teeth may use full proper name such as maxillary right canine of symbols according to FDI two-digit notation and write full name in the parenthesis after the first mention such as tooth 31 (mandibular left central incisor)

7. Table: should be typed on separate sheets and number consecutively with the Arabic numbers. Table should self-explanatory and include a brief descriptive title. Footnotes to tables indicated by lower-case superscript letters are acceptable.

8. Figure : the photographs and figures must be clearly illustrated with legend and must have a high resolution and acceptable file types to meet technical evaluation of JDAT that is adapted from file submissions specifications of Pubmed (<https://www.ncbi.nlm.nih.gov/pmc/pub/filespec-images/#int-disp>). We classify type of figure as 3 types following: line art, halftones and combo (line art and halftone combinations) The details of description, required format, color mode and resolution requirement are given in table below.

Numbers, letters and symbols must be clear and even throughout which used in Arabic form and limited as necessary. During the submission process, all photos and tables must be submitted in the separate files. Once the manuscript is accepted, an author may be requested to resubmit the high quality photos.

Image type	Description	Example	Recommended format	Color mode	Resolution
<p>Line art</p>	<p>An image which is composed of line and text and is not contained of tonal or shading areas.</p>		<p>tif. of eps.</p>	<p>Monochrome 1-bit of RGB</p>	<p>900-1200 dpi</p>
<p>Half tone</p>	<p>A continuous tone photograph which does not compose of text.</p>		<p>tif.</p>	<p>RGB of Graycale</p>	<p>300 dpi</p>
<p>Combo</p>	<p>Combination of line art and half tone.</p>		<p>tif. of eps.</p>	<p>RGB of Graycale</p>	<p>500-900 dpi</p>

» Contact Address «

Editorial Staff of JDAT

» Preparation of the Research Articles «

1. Title Page

The first page of the article should contain the following information

- Category of the manuscript
- Article title
- Authors' names and affiliated institutions
- Author's details (name, mailing address, E-mail, telephone and FAX number)

2. Abstract

The abstract must be typed in only paragraph. Only English abstract is required for English article. Both English and Thai abstract are required for Thai article and put in separate pages. The abstract should contain title, objectives, methods, results and conclusion continuously without heading on each section. Do not refer any documents, illustrations or tables in the abstract. The teeth must be written by its proper name not by symbol. Do not use English words in Thai abstract but translate or transliterate it into Thai words and do not put the original words in the parenthesis. English abstract must not exceed 300 words. Key words (3-5 words) are written at the end of the abstract in alphabetical order with comma (,) in-between.

3. Text

The text of the original articles should be organized in section as follows

- **Introduction:** indicates reasons or importances of the research, objectives, scope of the study. Introduction should review new documents in order to show the correlation of the contents in the article and original knowledge. It must also clearly indicate the hypothesis.

- **Materials and Methods:** indicate details of materials and methods used in the study for readers to be able to repeat such as chemical product names, types of experimental animals, details of patients including sources, sex, age etc. It must also indicate name, type, specification, and other information of materials for each method. For a research report performed in human subjects, human material samples, human participants and animal samples, authors should indicate that the study was performed according to the Experiment involving human or animal subjects such as Declaration of Helsinki 2000, available at: <https://www.wma.net/what-we-do/medical-ethics/declaration-of-helsinki/doh-oct2000/>, or has been approved by

the ethic committees of each institute (*ethic number is required).

- **Results:** Results are presentation of the discovery of experiment or researches. It should be categorized and related to the objectives of the articles. The results can be presented in various forms such as words, tables, graphs of illustrations etc. Avoid repeating the results both un tables and in paragraph =. Emphasize inly important issues.

- **Discussion:** The topics to be discussed include the objectives of the study, advantages and disadvantages of materials and methods. However, the important points to be especially considered are the experimental results compared directly with the concerned experimental study. It should indicate the new discovery and/or important issues including the conclusion from the study. New suggestion problems and informed in the discussion and indicate the ways to make good use of the results.

- **Conclusion:** indicates the brief results and the conclusion of the analysis.

- **Acknowledge:** indicates the institute or persons helping the authors, especially on capital sources of researches and numbers of research funds (if any).

- **Conflicts of interest :** for the transparency and helping the reviewers assess any potential bias. JDAT requires all authors to declare any competing commercial interests in conjunction with the submitted work.

- **Reference:** include every concerned document that the authors referred in the articles. Names of the journals must be abbreviated according to the journal name lists n "Index Medicus" published annually of from the website <http://www.nlm.nih.gov>

» Writing the References «

The references of both Thai and English articles must be written only in English. Reference system must be Vancouver reference style using Arabic numbers, making order according to the texts chronologically. Titles of the Journal must be in Bold and Italics. The publication year, issue and pages are listed respectively without volume.
